# GET IT ONLINE

Remember the days of asking for home delivery when you had your groceries scanned at the checkout by the "checkout chick"?

It's back. But in a new way.

Now, most major supermarkets and a number of independents offer online grocery purchase and delivery. No more waiting outside in the cold or fighting for that roll of toilet paper!

Simply place your order online and have it delivered!

# GROCERY DELIVERY

Major grocers such as Coles and Woolworths offer online shopping and home delivery services. There are also several major independent retailers, websites, apps and contractors which also offer retail or pick-and-deliver services.

Here's a selection of online grocers:

# HOW DOES IT WORK?

You will need an internet connected device such as a computer, tablet or smartphone.

To access websites such as coles or woolworths you will need a web browser such as Safari or Chrome.

Some services also offer an app that can be downloaded to your device.

For payment you will need a credit card, mastercard/visa debit card or paypal.

You will need to ensure your contact details are up to date so the supermarket or the driver can contact you.

Delivery times are either the same or next day (depending at what time of day you order). Allow a 2-4 hour window for the delivery - usually AM or PM.

# WHAT DO I DO?

- Browse to your chosen site
- Search and add items to your shopping cart
- Go to checkout and pay
- Setup delivery and choose a delivery time
- Be home when your delivery arrives!

Your delivery should arrive in crates, boxes or plastic bags. Food should be separated into types - cold food & dairy, meat, vegetables etc

If items you request are not available, grocers will either replace the item for a similar one of the same value. Other grocers will omit the item and refund you accordingly.

# FOOD DELIVERY

*"I'm hungry and I don't want to cook!"*

said most of us at some time!

You're well taken care of when it comes to food delivery services!

Many restaurants have offered delivery for some time. Food delivery apps offer a wide variety of meal options in just a single app.

Choose your food, pay and sit back and wait for your food to arrive!

# WHO ARE THE PLAYERS?

Here are some of the names in this area, you may have heard of some of these already!:

- ubereats
- deliveroo
- doordash
- menulog
- easi
- foodora
- foodpanda
- eatnow
- postmates
- tipple (alcohol delivery)

# HOW DO I ORDER?

As these services are largely app based, you will need a smartphone or tablet. Some services do have websites, making them available to users of laptops and computers.

To order, simply open your chosen app and follow the setup instructions - these usually include taking a form of payment, usually a credit card, debit mastercard/visa, or paypal, obtaining personal details such as name, address and contact phone number, and finally some preferences for food.

Once your app is setup, you are good to go!

Scroll to a restaurant, choose your food and then wait for delivery.

# BUT I LIKE TO COOK!

Still want to do the cooking but just can't get the ingredients in? Well you too are covered! Recent years have seen the growth of food box services.

These services offer a variety of meal types - the pitch being that the ingredients are delivered to you fresh, you just have to do the cooking. Great for those people who want to make their meal their way!

Some of these services include:

- marley spoon
- hello fresh
- dinnerly
- pepperleaf
